Alertness Suite

Sponsored Content #1

Headline:	Replace 5 AI Subscriptions With One Tool	
CTA:	Try for Free	

Body Copy:

Alertness Suite combines podcasts, video, TTS, and presentation generation in a single platform. €39 one-time — no monthly fees.

Your team creates content from documents, research, and reports without juggling multiple tools. 200 source documents, 30+ natural TTS voices.

Free tier available. No credit card required.

Sponsored Content #2

Headline:	AI Content Creation Without the SaaS Tax	
CTA:	Learn More	

Body Copy:

Most AI content tools charge \$20–\$50/month. Alertness Suite costs €39 once.

Generate podcasts from documents. Create presentations from research. Produce video from text. All with 30+ TTS voices and multi-language support.

Built for teams that create content at scale.

Message Ad / InMail

Subject: A better way to create AI content (no subscription)

Hi {{FirstName}},

I noticed your team creates a lot of content — and probably uses 3–4 different AI tools to do it.

We built Alertness Suite to consolidate that. One tool for podcasts, video, TTS audio, and presentations. Upload documents, choose a voice, generate.

The pricing is simple: €39 one-time, or start with our free tier.

Would you be open to a quick look? Happy to set up a 15-minute demo.

Best,
Dr. John Cobin

Subject: A free tool your video team will thank you for

Hi {{FirstName}},

Quick one: does your team record internal training videos or presentations?

We offer a free, browser-based teleprompter that works on any device. No download, no account, no ads. Just open and start reading.

It has speed control, mirror mode, and fullscreen — everything the paid apps charge for, but free.

Give it a try and let me know what you think.

Title: Built an open alternative to NotebookLM — podcasts, video, TTS & presentations from docs (€39 one-time, free tier)

Hey r/artificial,

I got frustrated with NotebookLM's limits and subscription fatigue from other AI tools, so I built Alertness Suite — a single tool that does podcasts, video, TTS, and presentations from your documents.

Key details:

- 200 source documents
- 30+ natural TTS voices (multi-language)
- Video generation, audio creation, slide decks
- €39 one-time payment (no subscription)
- Free tier available — no credit card

Happy to answer questions about the architecture or how it compares to other tools.

Title: I replaced 4 AI subscriptions with one €39 tool — here's what I learned building it

After paying ~\$80/month for separate podcast, video, TTS, and presentation tools, I decided to build a unified suite.

Alertness Suite handles:

- Document → podcast (with natural multi-speaker TTS)
- Text/doc → video
- 30+ TTS voices, multiple languages
- Presentation generation from research

It's €39 one-time with a free tier. No SaaS subscription model.

Curious what the community thinks — especially about the one-time pricing approach vs. subscription.

Title: Free tool: turn research docs into podcast episodes with 30+ natural voices

Built a tool called Alertness Suite that lets you upload documents (PDF, DOCX, TXT, etc.) and generate podcast episodes with natural-sounding voices.

Features relevant to this sub:

- 30+ TTS voices with different styles
- Multi-speaker conversations
- Multi-language support
- Export as MP3/WAV with transcripts
- 200 source documents per project

Free tier available, full version is €39 one-time (not a subscription).

Would love feedback from actual podcasters — what features would make this more useful for your workflow?
